

East Brook Community Farm's 7th Annual Plant Sale Starting Saturday, 5/27/23

Plants will be available for purchase at our farmstand beginning Memorial Day Weekend, until we sell out. This guide is available in printed form at the farmstand, and on our website. Our farmstand is open daily during daylight hours and is self-serve.

Since we are running a smaller operation this year, we won't be taking orders or bringing seedlings to farmers markets. We are growing smaller amounts of the same general assortment of veggies, herbs, and flowers as in past years. We only sell plant varieties we've grown here before, so we know they can thrive in this climate. We'd love to help your garden grow! See the rest of this document for plant varieties, pictures, and descriptions.

KEY TERMS

Open-Pollinated plants produce seeds that are "true to type" - they match the characteristics of the parent plant. You can reliably save seeds from open pollinated plants, because open pollinated plants have relatively stable traits from one generation to the next.

Heirloom plants are grown from seeds that have been saved over many years and passed down, in original form, from generation to generation. Not all open-pollinated seeds are heirlooms (because the varieties are too new), but all heirlooms are open-pollinated. We've only distinguished heirlooms from open-pollinated plants for tomatoes, since that's what people tend to ask us about.

Hybrid plants are the offspring of a cross between two or more distinct parent lines, selected for improved traits. While you can save seeds from hybrid plants, they do not produce plants that are true to type, so your saved seed may produce plants with a wide range of characteristics.

Determinate tomatoes are bush-type tomatoes that don't need pruning. Their fruit ripens within a concentrated time period.

Indeterminate tomatoes are vine-type tomatoes that benefit from regular pruning. Their fruit ripens over an extended period.

Days listed for tomatoes and peppers indicate the number of days from transplant to mature fruit.

PRODUCE

Plants listed in alphabetical order

Broccoli, De Cicco

4-pack

open-pollinated

After harvesting the central head, these plants will produce abundant side shots throughout the season.

Cabbage, Red Acre

4-pack

open-pollinated

Cabbage, Golden Acre

4-pack

open-pollinated

Chard, Bright Lights

4-pack

open-pollinated

Cucumber, Little Leaf (Pickler)

2" pot

open-pollinated

Ground Cherry, Cossack Pineapple

2" pot

open-pollinated

Cucumber, DMR 401 (Slicer)

2" pot

open-pollinated

Kale, Red Russian / Lacinato

4-pack

open-pollinated

Eggplant, Diamond

4" pot

open-pollinated

Kale, Scarlet / Vates

4-pack
open-pollinated

Lettuce Mix

4-pack
open-pollinated

Varieties selected for heat resistance

Pepper, Shishito (frying)

4" pot
Hybrid
60 days green, 80 days red

Traditional Japanese pepper. Heavily wrinkled fruits are thin walled, mild (no heat) when green and slightly sweet when red. Very good as tempura, roasted, in stir fries, or sautes. Traditionally used when green.

Pepper, Early Jalapeño (hot)

4" pot
60 days green, 80 days red
open-pollinated

Pepper, Long Red Narrow Cayenne (hot)

4" pot

open-pollinated

75 days red

Pepper, Cubanelle (sweet)

4" pot

Open-pollinated

80 days red

One of the heaviest pepper producers on our farm. These semi-sweet peppers are great raw or cooked. Waxy yellow-green fruits ripen to red.

Pepper, Ace (sweet)

4" pot

Hybrid

60 days red

A red bell pepper that's easy to grow in the North! Resists blossom drop even in adverse weather so that almost every flower produces. Fruits are thin-walled, turn red early, and taste great.

Pepper, Sweet Pimiento (sweet)

4" pot

open-pollinated

80 days red

Early and prolific even in bad years, with a rich fruity taste. Well adapted to cold climates. One of Rachael's favorites.

Summer Squash, Saffron

2" pot

open-pollinated

Tomato, Sungold (Cherry)

4" pot

57 days. Hybrid. Indeterminate.

Exceptionally sweet, bright tangerine-orange cherry tomatoes that many folks ask for by name.

Tomato, Matt's Wild (Cherry)

4" pot

55-60 days. Heirloom. Indeterminate.

A native of Mexico, this robust and sprawling cherry tomato is loved for the rich flavor of its sweet fruits. An early producer. Very likely to self-sow in your garden!

Tomato, Roma (Paste)

4" pot

76 days. Heirloom. Determinate.

Classic processing tomato. Compact plants produce tomatoes with meaty interiors and few seeds.

Tomato, San Marzano (Paste)

4" pot

78 days. Heirloom. Indeterminate.

Considered one of the best paste tomatoes of all time. This strain originates from Parma, Italy, where it was developed for the 1950s canning industry.

Tomato, Moskvich (Slicing)

4" pot

60 days. Heirloom. Indeterminate.

High quality, early season red heirloom that rivals hybrids. Great eaten fresh or processed. Highly resistant to cracking, making it a great pick for the greenhouse. Stands up to cool conditions.

Tomato, Cosmonaut Volkov (Slicing)

4" pot

72 days. Heirloom. Indeterminate.

Sturdy, productive, cool-weather tolerant and great flavor. Heavy yields of big red fruit.

Tomato, Striped German (Slicing)

4" pot

80 days. Heirloom. Indeterminate.

Beautiful, large, bi-color yellow/red tomato. Complex, fruity flavor and smooth texture. One of our favorites for tomato sandwiches!

Tomato, Stupice (Slicing / Saladette)

4" pot

55-70 days. Heirloom. Indeterminate.

Compact plants with potato leaf foliage loaded with clusters of 2" fruits. Quite early, great flavor. Heavy yields all season (one of the highest yielding varieties on our farm). Great producer in northern climates.

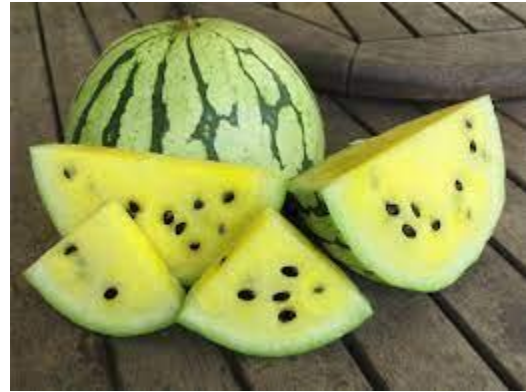

Watermelon, Sugar Baby

2" pot

open-pollinated

8-10 pound fruits.

Watermelon, Early Moonbeam

2" pot

open-pollinated

Rachael's favorite watermelon! 5-8 pound fruits.

Winter Squash, Burpee's Butterbush (Butternut)

2" pot

open-pollinated

Bush-type winter squash, good for compact spaces.

Winter Squash, Table Queen (Acorn)

2" pot
open-pollinated

Bush-type winter squash, good for compact spaces.

Zucchini, Cocozelle

2" pot
open-pollinated

Winter Squash, Zeppelin (Delicata)

2" pot
open-pollinated

Vining-type winter squash, needs more space than bush types.

Zucchini, Dark Green

2" pot
open-pollinated

HERBS + FLOWERS

Plants listed in alphabetical order

All annuals unless otherwise noted

Basil, Sweet Genovese

4-pack

open-pollinated

Classic Italian basil.

Basil, Holy (aka Tulsi)

4-pack

open-pollinated

For teas, culinary, and medicinal use. Great for pollinators and beneficial insects.

Basil, Thai

4-pack

open-pollinated

Beautiful purple stems and blooms. Flavorful garnish with an anise/clove type flavor.

Calendula, Yellow/Orange Resina

4-pack

open-pollinated

The preferred calendula for making herbal medicine, with high concentrations of plant resins. Cheerful flowers, good for pollinators, edible petals. Readily self sows in the garden.

Calendula, Flashback

4-pack

open-pollinated

Mix of orange, yellow, apricot, and peachy petals with red backing. Great for pollinators, edible petals. Readily self sows in the garden.

Cosmos, Red/Orange

4-pack

open-pollinated

Sun-loving, large, feathery plants with flowers that attract pollinators and beneficals.

Cosmos, Purple/Pink/White

4-pack

open-pollinated

Sun-loving, large, feathery plants with flowers that attract pollinators and beneficals.

Dill, Hera

2" pot (10+ plants per pot)

open-pollinated

A slow-bolting dill that produces high yields of foliage.

Hollyhock, Black

2" or 4" pot
open-pollinated

*A self-seeding biennial, grows up to 6 feet tall!
Produces magnificent spikes of blue-black
flowers in its second year. Good for
landscaping and ornamental gardens.*

Hollyhock, Outhouse

2" or 4" pot
open-pollinated

*A self-seeding biennial, grows up to 9 feet tall!
Produces magnificent spikes of pink, white,
red, and burgundy flowers in its second year.
Good for landscaping and ornamental gardens.*

Marigold, Crackerjack

4-pack
open-pollinated

*African variety. Taller plants with larger leaves
and flowers than other marigolds.*

Marigold, Red Metamorph

4-pack
open-pollinated

French variety. Small, bushy plants.

Parsley, Italian Flat Leaf

4-pack

open-pollinated

Yarrow

Priced per pot

open-pollinated

Easy to care for perennial. Long-lived, long-blooming, drought-tolerant, beautiful plants that support beneficial insects. Note, blooms may not be white, but will very likely be a light color.

Tithonia, Red Torch

4-pack

open-pollinated

Also known as Mexican Sunflower, these massive, beautiful plants are the best for attracting monarch butterflies.

Zinnia, Benary's Giant Mix

4-pack

open-pollinated

Premium colorful zinnia, long lasting blooms in the garden and in bouquets.
